To whom it may concern

I would like to recommend Mr. Adam Prskavec for scholarship you offer. Adam was the best student in my Applied Statistics class where he was the only one with overall average 99%. I find him to be hard-working and intelligent student. He attends faithfully, completes all assignments timely, and is a leader in the classroom. Adam is also willing to help other weak students.

I am impressed with his achievements. He helped in our GMC Math Club activities. His work demonstrates he is an outstanding student. I believe he will be doing well in the future.

If you have any questions, please don't hesitate to contact me. Thank you very much for any consideration on her behalf.

Sincerely,

Xionghui (Shawn) He, Ph.D.
